Mr. H.M. Shaver, Jr.
State Location and Design Engineer
Commonwealth of Virginia
Department of Highways & Transportation
1221 East Broad Street
Richmond, Virginia 23219

Attention: Mr. S.R. Conley

Re: State Project 0219-A-002
CIA Entrance at Route 123

Dear Mr. Shaver:

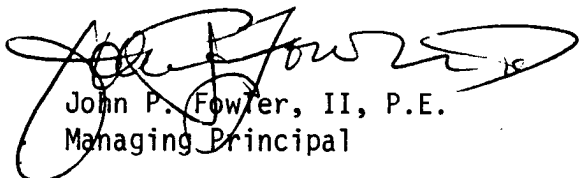

Furnished for the Department's review are five draft copies of the revised Technical Memorandum No. 2 covering the Preliminary Evaluation of Alternatives to provide access to the CIA Complex Improvement. Department review comments are incorporated.

Comparison of traffic service levels using the 1965 Highway Capacity Manual and Circular 212 on which the previous studies were based are given in this document. Note that service levels for a given location tend to be better using the 1965 Manual when conditions are favorable and they tend to be worse when roads are operating in the lower ranges of service.

Please give me a call when the Department is ready to complete the review.

Yours very truly,

DEWBERRY & DAVIS
